Junior Specialist

ZTK KNUBA

2017-2021

Computer engineering

LANGUAGES

Ukrainian ◆◆◆◆◆

English ◆◆◆◇◇

PROFILE

I started with HTML/CSS, after learning the basics I moved on to JavaScript basics. Then starting to learn React with Redux (+TypeScript) and required libraries.
Now I am looking for an opportunity to perform real tasks, because I believe that this approach greatly accelerates the learning process. I plan to improve practical skills, increase the technology stack, adopt best practices from experienced developers and, as a result, strengthen the development team.

WORK EXPERIENCE
